# HOTEL MANAGEMENT SYSTEM

The background of the slide features several thin, curved lines in a light gray color, some solid and some dashed, creating a modern, abstract design. On the left side, there is a red graphic element consisting of a horizontal bar at the top and a larger rectangular box below it, which has a small triangular point at the bottom center.

# Hotel management system

- Hotel management involves the management of anything that's related to the hotel industry. If you want to gain a foothold in this business, you will need to learn about all the techniques of managing a hotel business including marketing, hotel administration, catering management, housekeeping, and accounts. The primary goal behind learning the ins and outs of hotel management is to run a hotel successfully while managing the other aspects of the business at the same time.

Finally the payment is done according to the wish of payment decided by the customer .Then the payment is finished ,the payment completely depends on the usage of the customer such as if the customer used only the rooms then amount is charged only for that ,if the customer have used the food then amount is charged for that also .

Thank you
